

# Mohegan Sun Loading Dock Directions

## **TRADE SHOW INSTRUCTIONS**

---

When on Mohegan Sun Boulevard, follow the electronic signage for HOTEL CHECK IN.

**Stay in the EXTREME RIGHT LANE.** Once past the “Y” in the road. Move into the **LEFT LANE.**

At the end of the LARGE BUILDING STICKING OUT ON THE LEFT, **TAKE A LEFT.** **You will not see there is any place to park until after you make the turn.**

There is a small sign on the left for the CONVENTION CENTER LOADING DOCK.

Go straight and turn right at the building. Please park just before the canopy and not under it.

Note: TO AVOID GETTING A PARKING FINE OR HAVING A VEHICLE TOWED, DO NOT PARK ON THE YELLOW AND WHITE HASH LINES DESIGNATED AS NO PARKING AREAS.

As there are a number of vendors all trying to unload simultaneously, if you are not able to park in a position which does not block other’s access or you are forced to be on the hash lines, DO NOT LEAVE YOUR VEHICLE.

Please be considerate of other vendors; once you have parked and unloaded, please move your vehicle to allow others to do the same.

Vehicles may remain on the dock ONLY during the load in / out period.

After unloading, if drivers are not staying in the hotel, they would be best looping around in a circle – again following the signs for the Hotel and parking in the Riverview Parking Lot, which is a self parking lot just before the Convention Center Loading Dock. It is the closest parking area to the Convention Center.

If you are unable to get into the Convention Center from the Loading Dock, contact the **Convention Services Shift Manager on 860-961-7194** and let him know you are on the Loading Dock. He will be able to let you in.

Also please be advised the Convention Center only has a limited amount of carts to move equipment. The number of carts available for a trade show move in are determined by the other operational demands of the Convention Center on that day. Vendors with strict time constraints should provide their own carts to ensure their speedy arrival / departure.
