Union of Bricklayers
and Allied Craftworkers**

August 14, 2017

Sal Monarca
Vice President of Field Operations
Acranom Masonry Inc.
80 Industrial Park Access Rd.
Middlefield, CT 06455

Dear Mr. Monarca:

Congratulations! The Davis Barracks at the United States Military Academy West Point located in West Point, New York have been awarded the 2017 BAC Craft Award for Best Stone Project. Your collaboration with BAC Local 1 New York has been recognized as an outstanding industry example of design, execution and expertise. We commend you and those who worked on the project for the exceptional skill and craftsmanship demonstrated.

Since 1986, the BAC Craft Awards Program has recognized Local Unions, BAC craftworkers and their contractors for excellence in the trowel trades industry and outstanding Union and community service.

We had a record 200 submissions for this year's competition. The 2017 entries were impressive, and we look forward to sharing these achievements with our members, our industry and the general public.

The Craft Awards will be presented during BAC's Fall Executive Council meeting, which will be held Oct. 2-4th at the Tommy Douglas Center in Silver Spring, MD. Further details will be sent soon.

Again, congratulations on this well-deserved honor.

Sincerely,

James Boland
