| | #6 | Descri | ption: | | |

9. SOCIALIZATION & LEARNING HISTORY

Behaviour problems are the leading cause of death in dogs under three years of age. A socialization programme is like an immunization programme against future behaviour problems.

It is important that the dog has positive experiences during outings. Do not let people reach for your dog and try to pet him if there is any chance that he will be worried, backing up, barking, or in any other way avoiding interaction. If he doesn't want to interact, he doesn't have to. As your dog's caregiver, it is your job to protect him from situations that he is uncomfortable with. If he can trust you to keep him safe, he will learn to be more confident, because he doesn't have to worry about what might happen.

This is an extract from a typical socialization checklist for an 8 weeks old puppy. In your dog's case, we are going to use it as a diagnostic tool: Please **tick** all items that you think that your dog will be worried about. DO NOT tick items that your know your dog is happy with, and DO NOT tick items that will never apply to your dog's life. What is left will be your dog's socialization programme, together with any additional "triggers" that black boxes into which you can add anything else that your dog is having trouble with.

| Surfaces | Places, cont | - Dirt Bikes | Food Bowls |

11. DOG PERSONALITY QUESTIONNAIRE (DPQ)

(adapted from Gosling Jones 2008)

These personality traits and behaviour descriptions may or may not apply to your dog. Please indicate against each statement the extent to which you agree or disagree with that statement. You should rate your dog based on his or her general, overall behavior. If a question does not apply, or you don't know the answer, please skip it.

| # | GENERAL PERSONALITY TYPE | Boisterous | Confident | Alert | Calm | Lethargic | Aloof | Shy | Anxious |
|---|--|------------|-----------|-------|------|-----------|-------|-----|---------|
| 1 | Please mark the temperament types that apply to your dog (mark all that apply) | | | | | | | | |

| | | | | Agree | | Neither | Disagree | | |
|----|--|--------------|----------|------------|----------|-----------------------|----------|------------|----------|
| # | GENERAL TEMPERAMENT | Since age | Strongly | Moderately | Slightly | agree nor disagree | Slightly | Moderately | Strongly |
| 2 | Dog is easily startled by unexpected noises | | | | | | | | |
| 3 | Dog is easily startled by unexpected contact with objects (e.g. tripping, brushing against a door frame) | | | | | | | | |
| 4 | Dog takes a long time to recover after being startled or frightened | | | | | | | | |
| 5 | Dog does not adapt well to new situations and environments | | | | | | | | |
| 6 | Dog does not enjoy playing with toys | | | | | | | | |
| 7 | Dog chases cats, squirrels, birds, or other small animals | | | | | | | | |
| 8 | Dog catches and kills cats, squirrels, birds, or other small animals | | | | | | | | |
| 9 | Dog chases joggers, skateboarders, bicycles, motorbikes, or cars | | | | | | | | |
| 10 | Dog is sensitive (and reactive) to pain | | | | | | | | |
