# About Dog Games

Sally

Sean

Dog Games Ltd was created in 2004 by Sally and Sean Hopkins with the aim of improving the quality of life for both dogs and owners. Sally is a Canine Consultant, a full member of the Pet Dog Trainers of Europe (PDTE), Pet Professionals Guild (PPG) and the Association of Pet Dog Trainers (APDT). Sean and Sally created the dog games training method that helps dogs to become more focused and calm while working with their owner.

Steve

Lucy

Ben

Steph

Through years of training, observation and behavioural analysis Sally came to the conclusion that walking a dog on a collar and lead may be detrimental to the dog's health and welfare, potentially exacerbating or creating additional behavioural problems see illustrations opposite.

This resulted in her invention of the Fleece Lined harness and the upgraded, unique *PerfectFit* harness; both manufactured in our UK factory. Sally and Sean then realised they could improve the lives of many more dogs and owners through promotion of these harnesses than they could by personally running training classes and the focus of the business then changed to reflect this. Sally internationally lectures about dog training and welfare and the benefits of the *PerfectFit* harness.

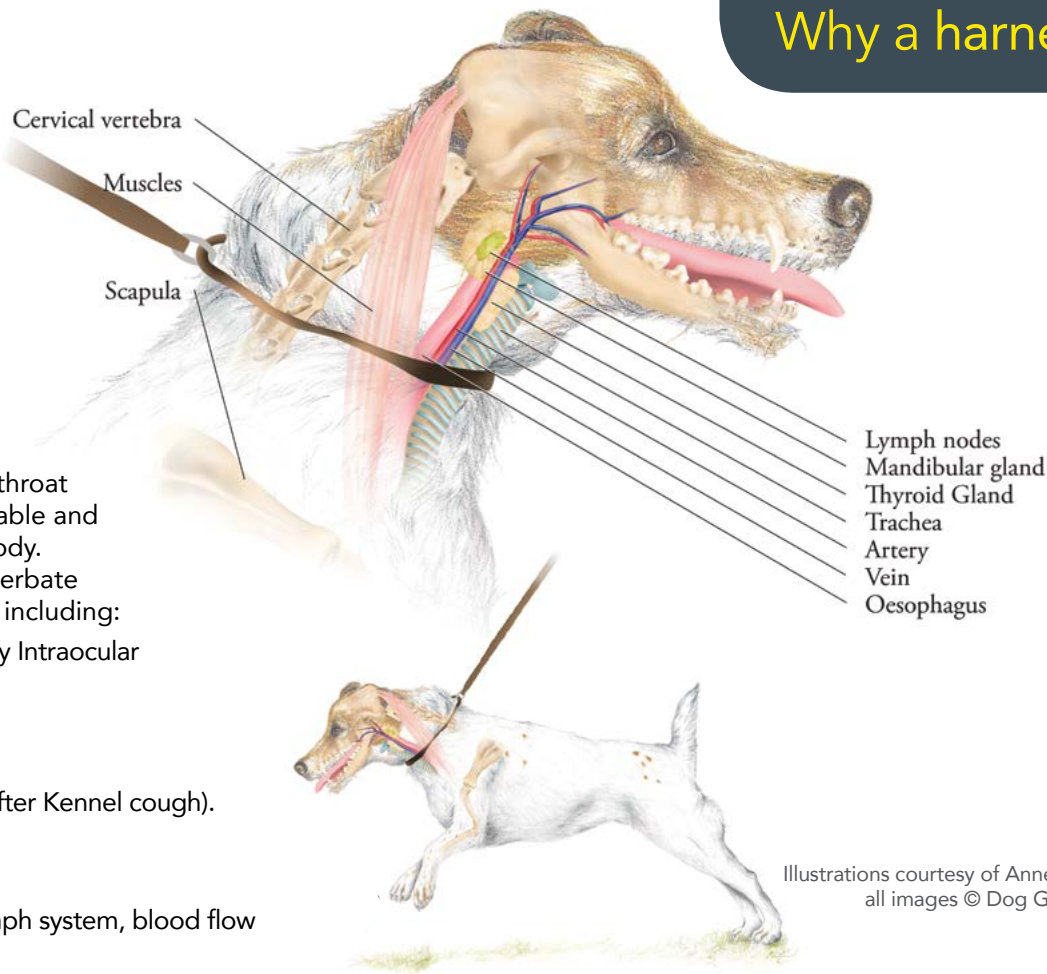

## Dog Games

## Why a harness?

The area around a dog's throat is one of the most vulnerable and overlooked parts of its body. Collars can cause or exacerbate many physical conditions including:

- Eye problems caused by Intraocular eye pressure.
- Collapsed Trachea.
- Syringomyelia.
- Sensitive throats (e.g. after Kennel cough).
- Recovery after surgery.
- Thyroid disorders.
- Negative effects on lymph system, blood flow and neural pathways.

all images © Dog Games Ltd

# PerfectFit harness vs. Fleece Lined Harness

Unlike a collar, our harnesses put no pressure on a dog's throat. Our original designs of harnesses are padded with soft high quality fleece to ensure comfort for your dog, and reduce movement and friction when walking on lead.

Hi vis orange fleece:  
reflective webbing

COLOURS MAY VARY SLIGHTLY

- Easy to put on – clips around the neck, then swings between legs and clips either side. No need to unclip all pieces as the harness is right for your dog.
- Reduces the chance of dogs escaping as the neck – the neck hole can be made smaller than the dog's skull.
- Adjustable over shoulders, front of chest & around the girth.
- Front D-ring available for use with a double ended lead.
- Calming – snug fit reassures and relaxes many dogs.
- Recommended by vets, trainers and behaviourists.
- Pieces can be bought separately -
  - As your dog grows.
  - If you want a different coloured top.
  - If a piece becomes damaged or chewed.

# PerfectFit

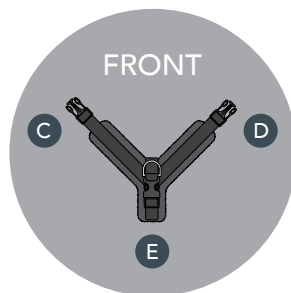

The ultimate walking harness

**TO PUT ON:**  
Look for two 'V' shapes (1 on top & 1 on the front) & clip C around the neck. Swing the rest of the harness between the dog's legs and clip A & B into position.

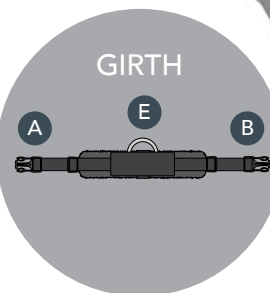

**TO TAKE OFF:** Unclip A, B & C.

# How to size for a *PerfectFit* harness

## Information required

- Age of dog (if under 2 years old).
- Breed of dog.  
(include any cross-breeds).
- Dog or bitch.
- Girth measurement.  
(see diagram below & table right).

	Suitable for:	Girth (cm)	Girth (inches)	Girth Size
Tiny <i>PerfectFit</i>	For <b>tiny breeds</b> of dogs eg. Chihuahuas Not suitable for dogs over 6lb	24-30	9-12	Size 12
		28-36	11-14	Size 14 & 34
		34-40	13-15.5	Size 36
15mm <i>PerfectFit</i>	For <b>small dogs &amp; cats</b> eg. Small Terriers Not suitable for very strong pullers	32-40	12.5-15.5	XS
		40-52	15.5-20	S
		46-59	18-23	M
20mm <i>PerfectFit</i>	For <b>small strong dogs &amp; medium to large sized dogs</b> eg. Spaniel & Collie	45-55	17.5-21.5	S
		53-65	20.5-25	M
		62-76	24-30	L
		74-86	29-33.5	XL
40mm <i>PerfectFit</i>	For <b>very strong pullers, large &amp; giant breeds</b> eg. German Shepherds	64-85	25-33	M
		74-93	29-36	L
		85-106	33-41	XL
		93-122	36-47	XXL

## Dog Games **FAQs**

### Will these harnesses stop my dog pulling?

Our harnesses are specifically designed to distribute the weight of the dog evenly over the harness – helping to reduce pulling, rubbing and friction. The feeling of security when wearing a soft, comfortable, well-fitting harness can encourage the dog to walk more calmly and in balance. This is often sufficient to encourage the dog not to pull as there are no more choking sensations around the throat or sharp edges rubbing against its skin. In addition, the front piece of a *PerfectFit* harness can be purchased with an extra D-ring (see below).

### How do I use front D-ring on the *PerfectFit* harness?

The front D-ring is designed for use in conjunction with a double ended lead or two leads, attached to both the back and front of the harness on your dog to enable greater control and to distribute any pulling force more evenly. This is also extremely useful in helping you to steer the dog away from undesired stimuli. **We do NOT recommend the front D-ring to be used on its own.**

### Can I get a harness fitted in person?

Yes, please see our website for local stockists and the list of shows we attend.

### Do you ship worldwide?

We are happy to ship to anywhere in the world – our website has both a currency converter for your local currency and a postage quote system which allows you to see the various postage prices available once an item is in your basket.

### Are your products machine washable?

Yes, all our products can be washed at low temperatures. **We do NOT recommend tumble drying any of our fleece products.**

### How can I order?

The easiest way to order is via our website. Our office staff are happy to answer any further questions you may have over the phone or via email during office hours (see back cover for contact details).

### What happens if I ordered the wrong size?

We are happy to exchange between sizes, but price differences will apply between ranges. We will also refund any product that is still in saleable condition if the product is unsuitable for your dog.
