President's Message

Hello All,

I am happy to say that April is now behind us. The month seemed to me to be unseasonably cold. At the time I am composing this letter the temperature is in the low 50's and the wind is hollowing, outside my window, making it feel much cooler than that.

Once again, Chevrolet has announced that the Bowling Green plant will be closed the week of April 25, through April 29, primarily due to parts shortages. The plant is slated to reopen on May the 2nd.

On a more energizing note, Mark Reuss of General Motors announced that the Corvette E-Ray will make its debut in 2023. Right now, there are no production details available other than to say that production will start in calendar year 2023. The Corvette E-Ray will be a 2023 model. The drive train will be comprised of the standard 6.2 Liter LT2 engine, creating 495 HP and 470 lb.-ft of torque at 6450 RPM and some type of electrical motor configuration. The combined horse power rating will be in the range of 650 to 695 horse power. Further enhancements include all-wheel drive. Stay tuned for further details.

More and more cars and coffee will be starting up this month. Please take some flyers for our September show and hand them out at these and other events and car shows. The CT Vettes for Vets Corvette Car show is back on for 2022. The show is hosted by our club and the For Corvettes Only Club. The show will be held on Saturday June 11, 2022, from 10am – 2pm. All Corvettes will assemble at Rocky Hill High School, Rocky Hill CT. Exit 24 off of Route 91. Please arrive no later than 9:45am. The caravan will depart at 10:00am SHARP and caravan to the Rocky Hill Veterans Home. Please contact Steve Poole at 860-908-3371 or by email at franstevepoole@comcat.net for further details. There is no cash admission fee. Your contribution of mostly for personal hygiene items for male and female veterans will be your admission.

Lastly, a few historical events that occurred in the month of May:

1. 1840 - The first adhesive postage stamp makes its debut in England.
2. 1952 – Mr. Potato is introduced.
3. 1626 – Manhattan is purchased from Native Americans for \$24.00 dollars in goods.
4. 1833 – John Deere produces the first steel plow.

So, now you know.

Save the Wave
Ken

*By-Laws change to allow an
increase in Membership*

ARTICLE IV – MEMBERSHIP (Amended, 10/19/2021)

Membership requires the possession of a valid Driver's License. An awareness of the needs of veterans is essential. It is the policy of the Corporation to provide membership without regard to race, color, sex, age, disability, religion, nation of origin or marital status.

Membership in the Corporation shall be open to all current, retired, or former members of the United States Armed Forces. Ownership or lease of a Corvette is required.

Membership is also open to any individual having an immediate family relationship to a current, retired, or former (including deceased) member of the United States Armed Forces. This relationship can be by grandparent, parent, spouse, sibling or children. Ownership or lease of a Corvette is required.

We WELCOME NEW MEMBER; William Collette and Jason & Maggie Candage

NCM NEWS

The 7th National Corvette Caravan is slated for August 29-31, 2024.

Often referred to as the world's largest moving automotive event, the National Corvette Caravan is a celebration of America's Sports Car, culminating in Bowling Green, Kentucky for the anniversary celebration of the National Corvette Museum. Hosted only once every five years, the next event is slated for Labor Day Weekend 2024 and will mark the Museum's 30th Anniversary.

Regional caravans will form and join other caravans as they travel across the United States to meet in Bowling Green, Kentucky for four days of festivities at the National Corvette Museum. An event such as this requires years of planning and coordinating. All help is appreciated! The Museum is located at I-65, exit 28 in South Central Kentucky and is open daily, 8am to 5pm Central Time. Stay up to day with the Museum by subscribing to emails [online here](#).

Corvette News

1LT, 2LT, 3LT: Explaining the Difference between C8 Corvette Trim Levels

The [Chevy C8 Corvette](#) Stingray is available as either a Coupe or a Convertible body styles. Each of those is available in three trim levels called 1LT, 2LT and 3LT. The decision about which body style to choose is not difficult – one prefers either a solid roof (with a manually-removable top) or the opportunity to feel the wind in one’s hair with the touch of a button. There isn’t much more to be said about that. However, picking a trim level of the 2020-[2021 Corvette](#) requires more consideration.

- S = Standard
- A = Available
- 1 = Standard on Convertible only

The table above shows any unique features available either as standard or as an option on the three C8 [Corvette](#) trim levels. Any equipment that's standard or optional across the board is not included because that's not what we're here to discuss.

Mechanically, every C8 Corvette Stingray on sale as of this writing is the same as any other. All of them have the same mid-mounted, naturally-aspirated [6.2L V8 LT2](#) engine which produces 490 horsepower and 465 pound-feet of torque in standard form, or 495 horsepower and 470 pound-feet of torque with the optional performance exhaust. This engine drives the rear wheels through an eight-speed dual-clutch transmission supplied by Tremec.

For anyone who wants a Corvette for its looks, sound, performance, handling or any combination of these four, the 1LT is the obvious choice. The 2021 model is priced to start at \$61,990 for the Coupe, including the \$1,095 destination charge. That's way less than the MSRP's of the 2LT (\$68,295) or the 3LT (\$72,945), neither of which is any better looking, sweeter sounding, faster or more capable through the bends than the 1LT.

2021 C8 Corvette Stingray Starting Prices

	Coupe	Conv.
1LT	\$60,995	\$68,495
2LT	\$68,295	\$75,295
3LT	\$72,945	\$79,945

Corvette News

However, these are not the only criteria. Chevrolet sold 20,368 units of the 2020 Corvette, and only 2,946 were of the 1LT trim level. Clearly, most buyers want more than the base model can provide.

The 2LT and 3LT versions of the Corvette might not be superior performance cars, but they are – or can be – much better equipped. Both feature a better sound system, more advanced safety features and a wider choice of seats than the 1LT. The 3LT goes still further, with more interior customization options than any other vehicle in the range.

Lack of supply has led to vehicles being sold above MSRP. The Corvette leads the pack, but Hummer EV buyers are now experiencing the same.

The C8 Corvette is a fantastic sports car. However, it has had more than its fair share of bad luck since launch making them quite difficult to find. And when supply is tight and demand is high, the price has nowhere to go but up. And we are not just talking about the typical MSRP price increases that come with a new model year. We are talking about the dreaded dealer markup above MSRP. We have seen examples of these markups ever since the C8 launch. But they continue today. And a recent study shows that the Corvette is marked up higher than any other vehicle on sale today.

The team over at iSeeCars recently analyzed 1.2 million new car listings. And what they found was that the average new car was marked up 9.9 percent above MSRP. In dollar terms, the average amount tacked on top of the sticker price was \$3,753. That is bad news for the average new car buyer. But the news is far worse for the new Corvette buyer. In fact, the news is over four times worse. The C8 Corvette is marked up 19.3 percent above MSRP. That makes it the 11th highest marked-up vehicle in terms of percentage. However, in terms of dollars, it ranks as the highest. It was found that the C8 on average is listed for \$15,218 above MSRP. That is a higher mark up than even Porsche Macan buyers deal with. And the Z06 isn't even here yet.

Corvette News

The Full Study

New Cars Priced the Highest Over MSRP – iSeeCars

Rank	Vehicle	% Above MSRP	\$ Above MSRP
1	<u>Jeep Wrangler</u>	26.7%	\$8,925
2	<u>Ford Maverick</u> (Hybrid)	25.0%	\$5,601
3	<u>Porsche Macan</u>	23.3%	\$13,254
4	<u>Jeep Wrangler Unlimited</u>	22.9%	\$9,534
5	<u>Jeep Gladiator</u>	22.5%	\$9,824
6	<u>Ford Maverick</u>	22.2%	\$5,368
7	<u>Lexus RX 450h</u>	21.0%	\$10,365
8	<u>Ford Bronco</u>	20.6%	\$7,783
9	<u>Genesis GV70</u>	20.0%	\$8,611
10	<u>Mercedes-Benz GLB</u>	19.8%	\$7,992
11	<u>Chevrolet Corvette</u>	19.3%	\$15,218
12	<u>Ford Mustang</u>	19.1%	\$6,941
13	<u>MINI Countryman</u>	18.9%	\$6,325
14	<u>Lexus RX 350L</u>	18.6%	\$9,242
15	<u>Mercedes-Benz GLA</u>	18.6%	\$7,142
Overall Average		9.9%	\$3,753

In the above chart you will see the full list of the top fifteen vehicles ranked by percentage above MSRP that they are listed for. Not a good time to be a Jeep or Ford fan as their models dominate the list. But from the standpoint of dollars, only three vehicles have 5-figure markups. The Lexus RX

Corvette News

450h, Porsche Macan, and beating Porsche in yet another comparison, is the Chevy Corvette. Now we are sure some rare, much more expensive exotic cars have higher markups. A Ferrari F8 Tributo probably goes for more than \$15K above sticker nowadays. But that is not a mainstream car. The Corvette is mainstream. That is what the C8 is all about. It performs like the Ferrari F8, but at a fraction of the price. So, even with these markups we still consider the C8 a good deal.

SAVE

THE

WAVE

The Corvette Wave is an integral part of the mystique and culture of the Corvette owner experience. So for those who don't know the five simple Corvette Wave rules, here they are:

1. There is no excuse for not waving at your fellow Corvette owner.
Although most Corvette owners have the class and understanding to accept when their wave is not returned, not waving is a serious breach of proper Corvette etiquette.

2. Whoever sees the other Corvette first, starts the wave.
There isn't any rule about who waves first. This is simple; if you see another Corvette, wave!

3. Rules 1 and 2 apply to both sexes.
As far as who starts the wave, it doesn't make a difference if you are a man or women. Rules 1 and 2 apply.

4. Any type of wave is okay.
Whether you shoot a big wave up through your open Vette top, out the window, or a quick salute with your hand on the steering wheel, any wave that can be seen by the other Corvette driver is okay. However, this does not include any style of jester that can be interpreted as obscene or insulting. Remember, Corvette owners are a class act; while someone might have been rude or stupid to you, try not to return the favor. (This is a tough rule not to break with all the stupid drivers who manage to get a driver's license.)

5. A late wave is better than no wave.
If you suddenly realize that a Corvette driver is passing and waving at you, get a wave off as soon as possible. The other Corvette driver may see your wave in their rear view mirror and realize that you were just a little late in getting your wave going. Although missing the timing of your wave is a "goof," getting off a wave that the other Corvette driver has a chance to see can acceptably cover this slip-up.

So you can see the underlying concept here is simple: Wave at your fellow Corvette owners, whoever they are, whenever you see them. This will show you are a person who understands the full measure and etiquette that comes with your proud ownership of a Corvette.

Corvette News

Here Are the Official 2023 Corvette Z06 Specs

We'll start with what is arguably the most important part of the 2023 [Corvette](#) Z06: the powertrain. The beating heart of the supercar is GM's new dual overhead cam, flat-plane crank [LT6 V8](#) engine. This motor has a bore of 4.104 inches and a stroke of 3.150 inches, giving it a total displacement of 5.5 liters. The block is made of A319-T7 sand-cast aluminum and features pressed-in iron cylinder liners and four-bolt main bearing caps and is joined by A356 T6 cast aluminum heads. Output is rated at a GM-estimated 670 horsepower at 8,400 rpm and 460 pound-feet of torque at 6,300 rpm. Power is sent to the rear wheels through a Tremec-designed and built eight-speed dual-clutch transmission, which features a shorter 5.56:1 final drive ratio in the Z06.

Corvette News

2023 Corvette Z06 Powertrain Specs

Engine Type	5.5L V8
RPO Code	LT6
Bore x Stroke (in / mm)	4.104 x 3.150 / 104.25 x 80
Block Material	A319-T7 sand-cast aluminum with pressed-in iron cylinder liners and four-bolt main bearing caps
Cylinder Head Material	A356 T6 cast aluminum
Valvetrain	DOHC, 4 valves per cylinder
Fuel Delivery	Exhaust side direct injection
Horsepower (hp / kw @ rpm)	670 / 500 @ 8,400 rpm (GM est.)
Torque (lb-ft / Nm @ rpm)	460 / 623 @ 6,300 rpm (GM est.)
Transmission Type	M1L 8-speed dual clutch (DCT)
Final Drive Ratio	5.56:1

Suspension

Now let's move on to the suspension. The 2023 Corvette Z06 is underpinned by short/long arm double wishbone suspension in the front and rear with forged aluminum upper and cast aluminum L-shaped lower control arms and monotube shock absorbers. [Magnetic Selective Ride Control](#) 4.0 is available, with Z07 Performance Package models receiving their own unique Magnetic Ride Control calibration. The steering system is made up of a variable-ratio rack-and-pinion with electric power assist and a 15:7:1 steering ratio. Models with Magnetic Ride Control also include Active Steer Stops.

Corvette News

2023 Corvette Z06 Suspension Specs

Front Suspension	Short/long arm (SLA) double wishbone, forged aluminum upper and cast aluminum L-shape lower control arms; monotube shock absorbers (46mm); Magnetic Selective Ride Control 4.0 available. Specific calibration with available Z07 package. front lift with memory is available
Rear Suspension	Short/long arm (SLA) double wishbone, forged aluminum upper and cast aluminum L-shape lower control arms; direct-acting stabilizer bar; monotube shock absorbers (46mm); Magnetic Selective Ride Control 4.0. Specific calibration with available Z07 package
Steering Type	Variable-ratio rack-and-pinion with electric power assist; includes Active Steer Stops with available Magnetic Ride Control 4.0
Steering Ratio	15:7:1

Brakes

Brembo six-piston brakes sit out front, which grab 14.6-inch two-piece rotors. Residing out back are a set of Brembo four-piston calipers, grabbing a set of slightly larger 15-inch rotors. Carbon ceramic brakes are available via the Z07 Performance Package, which feature the same Brembo calipers, but larger 15.7-inch and 15.4-inch front and rear carbon rotors.

Corvette News

2023 Corvette Z06 Brake Specs

Front Brake Type	eBoost-assisted discs with Brembo six-piston/two-piece calipers
Rear Brake Type	eBoost-assisted discs with Brembo four-piston/monobloc calipers
Front Brake Rotor Size (in / mm)	14.6 x 1.3 / 370 x 34
Front Brake Rotor Size (Carbon Ceramic) (in / mm)	15.7 x 1.5 / 398 x 38
Rear Brake Rotor Size (in / mm)	15.0 x 1.3 / 380 x 34
Rear Brake Rotor Size (Carbon Ceramic) (in / mm)	15.4 x 1.3 / 390 x 34

Wheels

The 2023 Corvette Z06 rolls on staggered wheels measuring 20 inches by 10 inches in the front and 21 inches by 13 inches in the rear. The front tire size is 275/30ZR20, while the rear tire size is 345/25ZR21. The wheels come shod in Michelin Pilot Sport 4S ZP tires, although stickier Michelin Sport Cup 2 R ZP rubber is available via the Z07 pack.

2023 Corvette Z06 Wheel Specs

Front Wheel Size	20-inch x 10-inch (w/ 5 x 120mm bolt pattern)
Rear Wheel Size	21-inch x 13-inch (w/ 5 x 120mm bolt pattern)
Standard Tire Type	Michelin Pilot Sport 4S ZP
Optional Tire Type	Michelin Sport Cup 2 R ZP
Front Tire Size	275/30ZR20
Rear Tire Size	345/25ZR21

Corvette News

Exterior

The 2023 Corvette Z06 is wider than the [C8 Corvette Stingray](#), boasting a width of 79.7 inches and front and rear track widths of 66.3 and 66.1 inches, respectively. The vehicle is also 184.6 inches long with a 107.2-inch wheelbase and is 48.6 inches tall.

2023 Corvette Z06 Exterior Dimensions

Wheelbase (in / mm)	107.2 / 2,722
Overall Length (in / mm)	184.6 / 4,688
Overall Length (Carbon Fiber Ground Effects Package) (in / mm)	185.9 / 4,722
Overall Width (in / mm)	79.7 / 2,025
Overall Height (in / mm)	48.6 / 1,235
Front Track (in / mm)	66.3 / 1,685
Rear Track (in / mm)	66.1 / 1,678

Interior

The interior dimensions of the Corvette Z06 are mostly the same as the Stingray on which it's based. It has 37.9 inches of headroom, along with 42.8 inches of legroom, 54.4 inches of shoulder room and 52 inches of front hip room.

Corvette News

2023 Corvette Z06 Interior Dimensions

Headroom (in / mm)	37.9 / 962
Legroom (in / mm)	42.8 / 1,087
Shoulder Room (in / mm)	54.4 / 1,382
Front Hip Room (in / mm)	52.0 / 1,321

Corvette News

Weights and Capacities

The 2023 Corvette Z06 tips the scales at 3,434 pounds when equipped with the Z07 Performance Package and the optional lightweight carbon fiber wheels. It has the same 12.6 cubic-inch cargo capacity as the Stingray as well.

2023 Corvette Z06 Weight And Capacities

Dry Weight (Z07 with Carbon Fiber Wheels) (lbs / kg)	3,434 / 1,561
Cargo Volume (cu. ft. / L)	12.6 / 357

MEMBERSHIP APPLICATION FORM
CONNECTICUT MILITARY CORVETTE CLUB, INC (CMCC)

Membership Requirements:

Membership shall be open to current/retired or former military persons in possession of a valid driver's license with a genuine interest in Corvettes and who own a Corvette, and will abide by the constitution of the corporation.

Membership is also open to any individual having an immediate family relationship to a current, retired, or former (including deceased) member of the United States Armed Forces. This relationship can be by grandparent, parent, spouse, sibling or children. Ownership or lease of a Corvette is required.

Additionally, the candidate must:

- 1) Fill-out the application for membership form.
- 2) Sign the acknowledgement of risk and hold harmless agreement.
- 3) Mail your Application and \$50 check, payable to CMCC, Inc., to Ken Nelson, 45 Robin Rd, Farmington, CT 06032

Note:

Members are encouraged to attend as a minimum 2 meeting, 2 events and a mandatory yearly meeting usually held in December. (Events are defined as club sponsored or endorsed car shows, road trips, cruise nights, socials and parades) Annual dues: \$50 (The spouse/partner of each member shall fall under his/her membership if they reside in the same household).

ACKNOWLEDGMENT OF RISK AND HOLD HARMLESS AGREEMENT

I hereby acknowledge that I have voluntarily chosen to participate in the activities of the Connecticut Military Corvette Club Inc. I recognize that the activities involve risk of injury and I agree to accept any and all risks associated with them, including but not limited to property damage or loss, minor bodily injury, severe bodily injury, and death. Furthermore, I recognize that participation in the club activities involves activities and risks incidental thereto, including but not limited to, travel to and from meetings, club events, club cruises, club classes, club car shows, and the possible reckless conduct of other participants. I am voluntarily participating in the activities with the knowledge

of the risks involved and hereby agree to accept any and all inherent risks of property damage, bodily injury, or death. In consideration of my participation in the activities and to the fullest extent permitted by law, I agree to indemnify, defend and hold the Connecticut Military Corvette Club Inc, its officers, directors, employees, agents, volunteers and assigns from and against all claims arising out of or resulting from my participation in the activities. "Claim" as used in this agreement means any financial loss, claim, suit, action, damage, or expense, including but not limited to attorney's fees, attributable to bodily injury, sickness, disease or death, or injury to or destruction of tangible property including loss of use resulting there from. In addition, I hereby voluntarily hold harmless the Connecticut Military Corvette Club Inc, its officers, directors, employees, agents, volunteers and assigns from any and all claims, both present and future, that may be made by me, my family, estate, heirs or assigns. I also understand that the Connecticut Military Corvette Club Inc does not provide any medical or dental insurance or life insurance to cover bodily injury, illness or death, nor insurance for personal property damage or loss, nor insurance for liability arising out of my negligent acts or omissions; and I acknowledge that I am completely responsible for my own insurance to cover these expenses. I further understand

that this acknowledgment of risk and hold harmless is intended to be as broad and inclusive as permitted by the laws of the State of Connecticut and that if any portion hereof is held invalid, I agree that the balance shall, notwithstanding, continue in full legal force and effect. I agree that this acknowledgment of risk and hold harmless is effective for as long as I am a member of the Connecticut Military Corvette Club Inc.
